Hi John:

Attached is the updated paper.

I realized that I don't need to do that much research, since John L. is only looking for very high level cleanup options. These are the options that we considered (formally and informally) at PV Shelf.

Have fun!

J

He said we can work on until sometime tomorrow, and his meeting may get pushed from this week to next anyway. So I'll keep you posted

Ok.

I will need to do a bit of research.

I may also reformat the file.

All the spaces are driving me crazy.

J

Judy, Thanks for getting this started. I will think about this some more, but for the last piece, JL is thinking Cleanup Technologies (cap, removal, etc.). Maybe you can take a stab at that and I will edit.

Thanks, John

Hi John:

Please take a look at my edits.

I have a couple of questions in the comments.

I won't send it to John L. until you have a chance to take a look.

Thanks!

J

Hi Folks

I have started to outline possible next steps in the attached document. We'd like to have a draft to send out to the senior leaders of the participating agency group sometime Tuesday afternoon. Please add and edit!

Thank you

John
